If Richard Croker had been in the Windson have heard some plain truths about himself, expressed in good Anglo-Saxon, which would not we been at all to his liking. BIJUR REPLIES TO SCHIEFFELIN.

Nathan Bijur, replying yesterday to a letter from William J. Schieffelin, of the Citizens Union declared that Assemblyman Mazet could not be regarded as a friend of Tammany, and

Moreover, if Tammany Hall did not regard him

as to-day its most dangerous enemy it would not concentrate upon him as it has, its fierce opposition; and if the body of voters throughout the city did not so regard him, public attention would not be fixed, as it is, upon the contest in this district. If, as you imply, the election of Mazet would be the triumph of Tammany and the election of Stewart its defeat, why has Tammany nominated Mr. Stewart, in spite of his professing your platform; and opposed Mr. Mazet, whom you impliedly call Tammany's friend? Commodore Mahan, in his open letter published this morning, correctly states the import of the local canvass in these words: "The one supreme conclusion which the general public will form if Mr. Mazet be defeated will be that it is not safe for a public man to make himself obnoxious to Tammany."

TAMMANY COLONIZATION IN 1 REPUBLICANS TO MAKE DETERMINED EFFORTS TO CARRY THE DISTRICT-LISTS TO

BE MADE PUBLIC. Evidence of the Tammany colonization of voters in the XIXth Assembly District is causing much uneasiness to many Citizens Union men and independent Democrats who have been disposed to range themselves against the Republicans in the political fight in the district. It has aroused the Republicans to make the most determined efforts to carry the district. A careful investigation of the registration lists has been made by the Republican managers, and in a day or two there will be offered for publication the names of about four hundred alleged colonized voters who have resistered with the purpose of helping Tammany in the election. These men will be challenged if they attempt to vote, and it is the declared intention of the Republicans to make the most determined efforts If saving our city.

Speaking yesterday of the case of the man Quisley, who registered in the XIXIN District, although he lived with his family in the XIXIVth District, Lemdel E. Quigg, president of the Republican County Committee, said that Quigley was one of fourteen men who produced what they thought was a voting residence in the XIXIN District by paying for latch keys to a flathouse. They all lived in the XIXIVth District, and none of them ate or slept in the flathouse. The sum of \$100 was paid for the fourteen latchkeys which they were allowed to carry around in their pockets. Register Fromme. Mr. Quigg added, had taken the ground that the men had the right to have a voting residence in one district and a living residence in another district. The Tammany method of colonizing voters in the XIXIXth District had been open and unbiushing, but the people of the district would not submit to such a wrong.

"Tammany Hall." Mr. Quigg went on, "thinks it is going to get those votes in the ballot-boxes and have the men arrested after the crime is done; but the Fammany Hall methods that go in some districts are not suited to the XIXIA Under the Moon system," run by McGurk's bouncer, you could register and vote, if you could avoid effection, five hundred times with a force of twenty men. When the colonized voters appear to commit the felony of casting a vote in the XIXIA District they will be arrested before they have a chance to do so."

HUNGARIANS RATIFY THE TICKET.

The Republican Hungarians in East Houston-st. held a ratification meeting at Liberty Hall. Nos. 257-263 East Houston-st. last evening. It was conducted by the Hungarian Republican Club, in co-operation with the Executive Committee of the Independent German movement, organized to fur-ther the election of the German candidates opposed to Tammany throughout the city. Nearly the entire audience, which filled the hall, was made up of Hungarians. They applicated and cheered the sentiments expressed by the speakers, whether uttered in the English, German or Magyar tongue all of which were used and apparently under-

Brand, candidate for Assemblyman in the Xth District. William N. Loew, William Byrnes and Julius White, candidate for Alderman in the Xth District.

The speakers laid special stress on the need of defeating Tammany in this election, each emphasizing some feature of Tammany misrule.

ACCUSED OF ILLEGAL REGISTRATION. Several men accused of illegal registration in the district east of the Bowery were held for examt-nation yesterday by Magistrate Crane in the Essex Market Court. HIS TESTIMONY BEFORE THE MAZET COMMITTEE TO-DAY.

There was little doing last night at the Democratic Club. Richard Croker walked up and down were in deep thought. In regard to Mr. Quigg's charge that Tammany is colonizing the XIXth Assembly District he said: "Quige? What's he amount to, anyway? He

wants to be talked about. That's all, He's got all he can do to try to elect Mazet. He pretends to be chairman of the Republican Committee, and he's only Mazet's agent. He'd better stop talk-

Asked about what line his testimony will take before the Mazet Committee to-day, Mr. Croker re-

lied: "You just wait until the time comes."
Referring to the report that Mr. Mazet was afraid faim, he said:
"We are perfectly law abiding. Mazet need not eafraid of anybody touching him. We won't violate the law. Why, the idea is ridiculous! I was thing only a short distance from Mazet, and there as nothing said or done to warrant any such a sport."

NICHOLAS MULLER DENOUNCED. HUGH M'ROBERTS GIVES OUT A STATEMENT

ABOUT RICHMOND COUNTY EXPENSES.

last night gave out a lengthy statement about what he sail was "the cost of Mullerism in Richmond County." In his statement he says among

About ten years ago Nicholas Muller became the leader of the Democratic party in the county of Richmond. He at once set to work to secure for his party, always taking care of himself and family first, all possible offices, for, like Richard Croker, he was working for his own pocket all the the time. The result is a startling one for the taxpayers. Croker, he was working for his own pocket all the the time. The result is a startling one for the taxpayers.

Despite the check of the dissatisfied Democrats he managed during the years 1885 and 1884 so increase the tax levies by \$70.437, or 25 per cent. In 1897 the tax levies by \$70.437, or 25 per cent. In 1897 the tax levied was \$222.584 larger than in 1894, an increase of 61 per cent. Thus the taxes have actually increased almost 100 per cent in ten years. Muller of course realized that it would be suicidal to increase the tax rate in proportion to the amount of tax levied, and to avoid this the assessment was gradually increased. Thus, from 1885 to 1896 the increase of assessment was \$776,000, or about 7 per cent. From 1892 to 1997 the increase was over \$12.280,000, or more than 142 per cent. In this way the rate was kept down and the taxpayers dejuded. During the period from January 1, 1896, to 1900 per cent. The proportion. From 1890 to 1894 the increase of the bonded debt of the county was \$480,000, while from 1896 to 1897 its bonded debt was increased facility. Thus in nine years the taxes have been doubled and the bonded debt has been increased nearly 170 per cent.

The question for the taxpayers to decide at this election is whether they will by their votes indorse such extravagance and will show whether or not they feel that they have received an adequate return in the way of improvements for this large amount of money expended.

VICTIM OF HIS OWN ERROR.

London letter to The Medical Record.

An inquest on the body of Dr. Dick, of Eastbourne, shows that he met with his death through a mistake of his own. Having supplied medicine to one of his patients, he was sent for next day and told that the first dose had made her very ill. He told her this could not be, and to reassure her poured out a dose and swallowed it in her presence. He admitted that it was nasty, but declared it was innocuous, and that he would take another dose on leaving. He did so, and rode home on his bleyde, but on arrival symptoms of poisoning had appeared, and he was only able to suggest the stomach pump. Medical neighbors were promptly in attendance, but he sank rapidly, in spite of all treatment Analysis showed that the medicine contained strychnine. The patient, who took only one dose, recovered. Two bottles were found in the deceased's surgery, near to each other neither labelled (2), one containing chloroform water, the other solution of strychnine.

tage of height for Jeffries of 54, inches, the champion standing 6 feet 115 inches to Sharkey's 5 feet Sty inches. The weight at which the men will enter the ringside is a matter of conjecture, but Jeffries's advantage will probably be in the neighborhood of twenty pounds, as he confesses to 206 pounds and Sharkey places his weight at 185 pounds. The champion has 6t inches the better of the reach. Sharkey also arrived in the city last night. Sharkey has been doing the hardest sort of training for several months. He is the excellent condition.

It is expected that one of the largest crowds that ever gathered to see a prizefight will be present, judging from the advance sale of seats, which has been enormous. Besides, the police have given out a statement that they will not interfere with the fight. The betting was lively last night, and thousands of dollars were wagered on the result, with plenty of Jeffries money still unplaced. He is the favorite at 10 to 7. 5% inches.
